Chris, see Akhter's email from March 11<sup>th</sup> of this year, specifically his item 4. He is acknowledging that Building J will not be closed.

Just to clarify things, we are going to make a simple notification letter to him so that we have something official in the state's file.

Good afternoon, Akhter.

I know you have concerns over the content of the meeting summary provided by Mike Stephenson, and we will be addressing most of your concerns with the "skeleton" work plan due on the 21<sup>st</sup>. We are circulating an internal draft of that plan now and hope to get it to the conference call attendees ahead of the 21<sup>st</sup> if possible.

I do hope that you will consider that the meeting summary provided to you was a recap of what was discussed and generally accepted by all of the meeting attendees during the conference call, and

that we are proceeding accordingly. To put it plainly, we just are very short on time for completion of this project and have to count on the agencies and our own team to help us make this project successful.

I look forward to speaking with you very shortly once the draft work plan is in your hands. Please call me if you need anything further in the meantime.

Respectfully,

### ***Safety Starts With Me: Live It 3-6-5***

Mike,

I have following concerns and questions:

- Please explain Interim Action Objectives (IAOs)

Final conformation Samples:

Facility must inform EPA/ and KDHE two weeks in advance before taking confirmation samples.

- Liveload waste soil vs Stockpiled waste soil

What is liveload waste soil?

Please explain how stockpiled waste soils will be managed in case of rain. You need to make sure that stockpiled waste soils do not further contaminate the facility.

Schedule

- 1) "Revised Interim Measures work plan submitted to EPA/KDHE by March 21. This plan will be a brief summary of closure activities and excavation plans.
- 2) More detailed closure plan and Interim Measures information will be prepared following approval of skeletal Interim Measures Plan. EPA/KDHE will turn this plan around within a week."

Item no. 1 and 2 above

-----"EPA/KDHE will turn this plan around within a week"

Did you mean Interim Measures work plan? Please explain

- 3) "Closure of Buildings B, C, D, and Process area completed by end of March."

How can you complete closure by the end of March?

- 4) "Building Demo to start around April 1."

After the Closure, then you will do building demo?

Please explain and re-write clearly so that there is no confusion.

Please also contact Ms. Jump at EPA if she has any comment.

Please continue your closure activities following the existing approved closure and work plan (Facility will close Bldg. C and process area and Bldg. J will not be closed)

Please review my comments with Mr. Martin Smith. I can be reached at 785-296-1610.

Thank you

Akhter

**Subject:** Meeting minutes from Feb 27 conference call - CH Wichita

Hello Everyone,

Attached please find the meeting minutes from our call last Thursday. We are working vigorously on the IRM work plan and schedule and will forward those to everyone once they are together or by March 21, whichever comes sooner. Please call or email if you have any questions or concerns.

Thanks,

Mike Stephenson
